Subject: Proposal for modified specifications of Lathe Machine for existing specification for Lathe Machine for Fitter trade under CTS.

Sir/Madam

This is to inform that the Sub-committee of NCVT on Norms and Courses, during its meeting held on 2nd June, 2014, discussed the proposal for modification of existing specifications of Lathe Machine for Fitter trade under CTS.

The committee did not agree to allow use of Pulley driven Lathe Machine for Fitter trade as this technology has now become very old. However, committee agreed to specify the length of the lathe bed as 4.5 feet which was not specified earlier. Committee approved specification of all geared Lathe Machine for Fitter trade under CTS as under:

"Lathe all geared head stock S.S and S.C. height of center over bed 15 cm- gap head complete with accessories, such as pump, all fittings, and splash guard driving plate with drivers, face plate 3 jaw chucks fixed and running center, driving dogs straight and bent tail". Length of Bed as 4.5 feet.

In view of above, henceforth, the above specification of lathe machine shall be followed for granting affiliation to ITIs desirous of conducting training programme in Fitter trade.

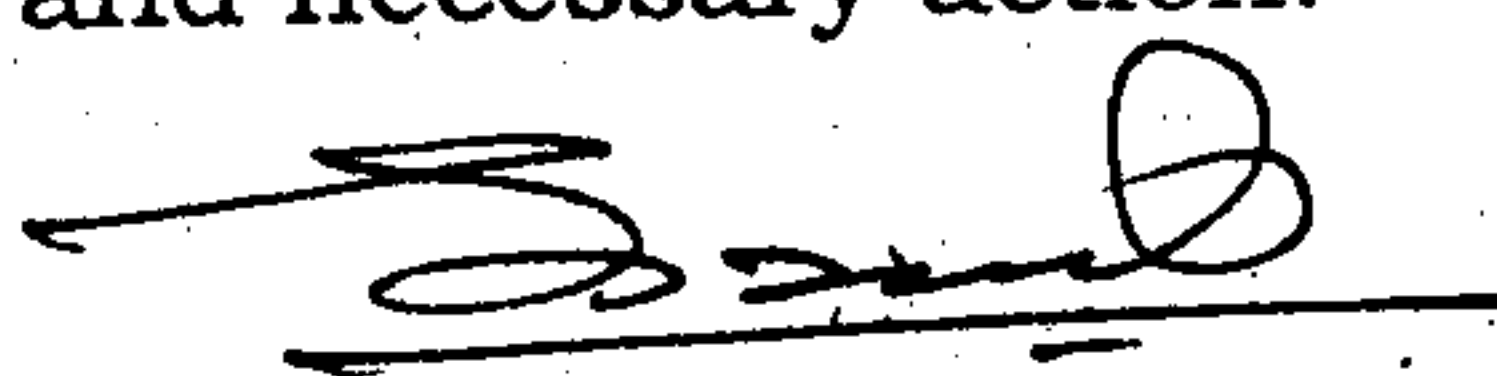

Yours faithfully,

(R. L. Singh)
Dy. Director General (Training)
Member-Secretary NCVT

Contd./-2

Endorsement on E2/34889/14 Kdis Dated 11/8/14
