POWER (PS) DEPARTMENT

G.O.(Rt)No:152/2015/PD

Dated, Thiruvananthapuram, 04.07.2015

---

R E A D: 1. Order dated 30.09.2014 of Kerala State Electricity Regulatory Commission  
2. Letter No. D (RE and P) /RE/Solar-General/GB offgrid/2014-15/324 dated, 16.01.2015 from the Director (RE&P) Kerala State Electricity Board Limited:

O R D E R

Kerala State Electricity Regulatory Commission vide Order read as 1<sup>st</sup> paper above has permitted all the distribution licensees to grant Generation Based Incentive (GBI) to Off-grid Solar Energy producing consumers at the rate of Rs.1/unit. As per the order KSEB can account such solar energy to the Renewable Purchase Obligation (RPO).

2. The Director (Renewable Energy& Planning), KSEB Limited vide letter read as 2<sup>nd</sup> paper above, has informed that though the KSEB Limited is exploring every option to develop solar electricity in the State, the Solar Renewable Purchase Obligation(RPO) of it remains unfilled. It is also reported that KSERC's in-principle approval for accounting off-grid electricity to the Renewable Purchase Obligation (RPO) of the utility is a relief to some extent to KSEB Limited. Hence it is requested that Government may permit them to account Solar electricity generated from off-grid plants established by various Government Departments in the State, against the Renewable Purchase Obligation (RPO) of KSEB Limited.

(PTO)

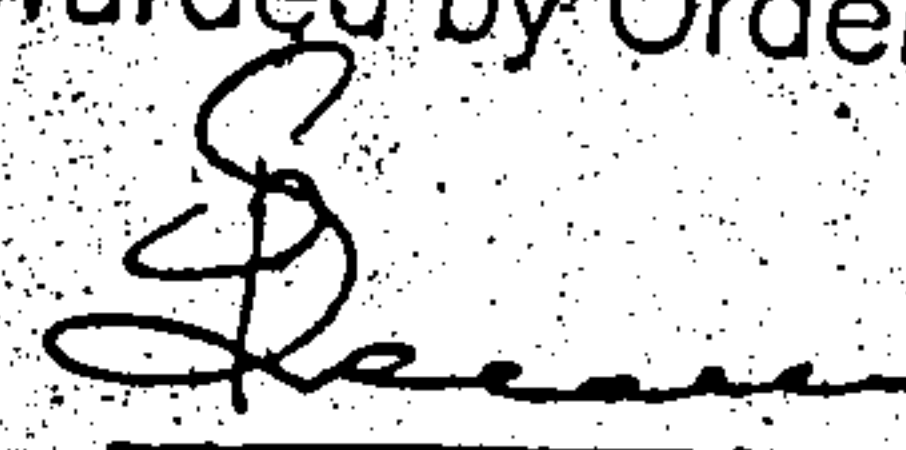

3. Government have examined the matter and are pleased to accord permission to Kerala State Electricity Board Limited to account the energy generated from Solar Off - grid plants established by Government Departments, against the RPO of KSEBL. All the Government Departments shall report the details of Off -grid Solar Power Plants established by them and the institutions under them to the Executive Engineer of Electrical Divisions of KSEB Limited of the area in which the off-grid power plants are situated.
